Second Quarter 2016 Results August 8, 2016

## Safe Harbor

Some of the statements in this presentation, including statements regarding investor demand and anticipated future financial results are "forward-looking statements." The words "anticipate," "believe," "estimate," "expect," "intend," "may," "outlook," "plan," "predict," "project," "will," "would" and similar expressions may identify forwardlooking statements, although not all forward-looking statements contain these identifying words. Factors that could cause actual results to differ materially from those contemplated by these forward statements include: the outcomes of pending governmental investigations and pending or threatened litigation, which are inherently uncertain; the impact of recent management changes and the ability to continue to retain key personnel; ability to achieve cost savings from recent restructurings; the Company's ability to continue to attract and retain new and existing retail and institutional investors; competition; overall economic conditions; demand for the types of loans facilitated by the Company; default rates and those factors set forth in the section titled "Risk Factors" in the Company's most recent Quarterly Report on Form 10-Q and Annual Report on Form 10-K, each filed with the SEC. The Company may not actually achieve the plans, intentions or expectations disclosed in forward-looking statements, and you should not place undue reliance on forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations disclosed in forward-looking statements. The Company does not assume any obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Information in this presentation is not an offer to sell securities or the solicitation of an offer to buy securities, nor shall there be any sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction.

## Pricing \& Credit Changes

We took several pricing and credit actions to improve future returns driven by macro uncertainty and pockets of underperformance. Based on these actions, portfolio level returns are expected to increase from $4 \%-5 \%$ to $6 \%+$ for vintages after June.

## Pricing Actions

- (12/22) : Portfolio rate $+0.25 \%$, largely grades C-F
- ( $1 / 28$ ) : Portfolio rate $+0.32 \%$, largely grades C-G
- (4/20) : Portfolio rate $+0.23 \%$, grades D-G
- (6/7): Portfolio rate:+0.55\%, across grades
- Overall portfolio rate increase of $+1.35 \%$ across grades

## Credit Policy Actions

- (April): Tightened approvals based on DTI and higher propensity to take on additional debt
- (June): DTI max criteria lowered from $40 \%$ to $35 \%$
- Reduced approval rates to eliminate roughly $9 \%$ of the higher risk personal loan population

## Notes

- While Q2 started off strong, many platform investors paused their purchasing mid-quarter
- Managed accounts resumed purchasing quickly, and several new dedicated funds joined the platform
- Banks are returning at a slower pace as they require a more lengthy due diligence process

## Contribution Definition and Reconciliation

- Contribution is a non-GAAP financial measure that we calculate as net income (loss), excluding net interest expense (income) and fair value adjustments, general and administrative expense, stock-based compensation expense and income tax expense (benefit). Contribution margin is calculated by dividing contribution by total operating revenue.

## Adjusted EBITDA Definition and Reconciliation

- Adjusted EBITDA is a non-GAAP financial measure that we calculate as net income (loss), excluding net interest expense (income) and fair value adjustments, acquisition and related expense, depreciation expense, amortization of intangible assets, stock-based compensation expense and income tax expense (benefit). Adjusted EBITDA margin is calculated as adjusted EBITDA divided by total operating revenue.
